

DISINFECTION ROBOT

MODEL: DG2

FEATURES

This product is equipped with a mature & professionally certified ultrasonic spray device, which can evenly spray various disinfection reagents. The spray device switch is controlled by a robot, which can meet the disinfection in a specific area and time to achieve the best disinfection effect.

Efficient & Convenient

Worker fast: 50 min disinfection point range 1000 m², artificial 10+ times faster;

Work hard: 7 days*24 hours to start work at any time;

Work safety: 360° all around disinfection, reassuring

APPLICATION FIELDS

Factory

Hospital

School

Hotel

MACHINE PARAMETERS

Parameters	Index
Size & weight	50*50*130 mm/60 Kg
Moving way	Laser & vision autonomous planning (covering an area of 25,000 square meters)
Charging method	Autonomous charging
Disinfection efficiency	3 kg/h heavy fog, can complete 1000 square meters disinfection in the fastest 60 mints
Liquid volume	16 L
Obstacle crossing ability	Sodium hypochlorite, hydrogen peroxide, peroxyacetic acid , etc.
Moving speed	0~0.6 m/s
Life time	6H (autonomous recharge)
Remote interaction	Voice intercom, remote control
Smart system	Unattended, APP management , custom inspection plan

ULTRASONIC HUMIDIFIER

MODEL: KLV-JS822 ELECTRICAL

FEATURES

- Automatically shut off upon empty tank/ top filling.
- 3 mist output levels
- 1~15 hour timer
- Touch switch
- LED display automatically display temperature & humidity; constant 70% RH humidity
- 1,3,5 minutes control./4 pcs of burner caps./ with trundles
- Can make an appointment working time

TECHNICAL DATA

- 100~250V 50Hz/60Hz, 135W
- Volume- 60L
- 3000ml/h evaporation
- Product size: 365*365*980 mm
- Packing size: 415*415*568 mm
